

LASER AND THERMAL CAMERAS

# BRAVO LASER ROTATIVO HV4

## DETAILS

- Automatic laser level with visible rotating red beam: generates a horizontal self-leveled plane and the plumb line
- High-sensitivity 4-line receiver
- Metal cover
- IP 66 dust/waterproofing: protected against ingress of dust and water
- By rotating the unit 90°, the unit generates a vertical self-leveled laser plane and two horizontal beams.
- SCANNER function to project a more visible and shorter line (adjustable to 4 lengths)
- SLOPE function (manual inclinations X, Y)
- MANUAL function, which excludes automatic levelling and allows the unit to be tilted at will
- TILT function: In case of unintentional movement the device switches off the laser beam.
- Laser with 4 rubberized handles for easier grip and increased protection
- Receiving the remote control on the 4 sides of the unit
- Ni-Mh rechargeable battery.
